BELIEVE VILLA AND CARRANZA ARE IN ACCORD

Possibility of War With U. S. Heals Breach in Factions.

June 27.—Evidence that the possibility of war with the United States has healed the breach between the Carranza and Villa factions in Mexican politics continued to increase today. More than one hundred wealthy Mexicans who, prior to surrender of the Villa garrison of Juarez last January, had been active in supporting the bandit leader and who since have been refugees in El Paso, crossed the Rio Grande and apparently were received in good favor by authorities of the de facto government. Handbills, printed in Spanish, asserting that Villa himself had been pledged to support the Carranza government in the event of a break with the United States, were circulated in Juarez and to some extent in the Mexican quarter in El Paso. All reports indicated, however, that the bandit chieftain has not yet joined the constitutional forces but with a body of his troops is somewhere in the Rio Grande district of southern Chihuahua, awaiting developments in the crisis.

General Manuel Medina y Vial, formerly Villa's chief of staff, and General Jose Ysabel Robles, minister of war in the Guiterrez cabinet, were guests today of General Francisco Gonzales, commandant in Juarez. With the American demands before Carranza, the heaviest guard yet maintained was bivouached about the two international bridges last night. From the Mexican side came reports that virtually the entire former garrison was withdrawn to Villa Ahua, 33 miles south. It is said a large command is entrenching there. Preparations for the reception of the state troops and the two additional batteries of the 15th field artillery under orders to take station in El Paso continued today.

WESTON WOMAN SUICIDE, IS FOUND IN DEEP THICKET

Lost Since Saturday, She Had Taken Whetstone and Knives With Her.

(Special to The Farmer) Redding, June 27.—The body of Miss Abbie Treadwell, aged 50, was found last night in a swamp near her home, just over the Weston line. She had crawled into a thicket and cut her throat. She had been missing since Saturday morning and searching parties had repeatedly passed near the spot where she lay. Late yesterday afternoon searchers returning from another part of the swamp passed on the inside of the thicket and stumbled across the body. Near it lay two butcher knives and a whetstone. Miss Treadwell had whetted them to a razor edge and then apparently decided to use a small, very sharp penknife.

Miss Treadwell was a member of an old Weston family. Recently the Treadwell farm, on that town was purchased by the Bridgeport Hydraulic Co. Miss Treadwell has been dependent over her unsettled prospects and had several times expressed her intention of taking her life. She made her home with Mrs. Columbus Bulley, whose helper and companion she was.

Saturday morning, accompanied by her dog, which was her inseparable companion, she left the Bulley home. That was the last seen of her until her body was found. Wet and bedraggled the dog returned home Sunday night. In the hope that the dog would lead a searching party to its mistress, the dog was released early Sunday morning, but it ran off so fast that the searchers were unable to follow.

Miss Treadwell is survived by two brothers and a sister. James and Eugene Treadwell of Fairfield and John Treadwell of Weston. The body was taken to Faber's undertaking shop in Weston.

GERMAN

Berlin, June 27.—Marked activity continues in evidence along the Franco-Belgian front held by the British and the northern wing of the French line. Numerous gas clouds are being employed by the entente forces in the operations, the war office announced today. The artillery fire on the German lines was especially intense in the vicinity of the Somme.

Bringing \$1,500,000 in gold, the steamer Kronland arrived at New York from Liverpool.

RUSSIANS PRESS ON IN PASSES LEADING TO HUNGARY PLAINS

Petrograd, June 27.—Along the Volynian front of Gen. Brusiloff's armies little save artillery fighting was reported officially. The Russian troops, according to the report, have beaten back all German and Austrian attacks. No advances on the Russian side, however, are reported. The German, the bulletin shows, have displayed some aggressiveness on the northern front in the Niemen region, but no success for them is reported.

Further south on the Dniester, the report announces, Cossacks are pushing forward on the southern flank of Gen. von Bothmer's army on the Stripa, and in Bukovina they are still pushing south into the Carpathian passes leading to Transylvania and Hungary. According to unofficial reports, the Russians in Western Bukovina and Galicia south of the Dniester are now within ten miles of Kolomoia.

German Attacks Fall in North. "There has been intense artillery fire," says the official report, "in many sectors around Jakobstadt and Dvinsk (on the Dvina front). In the region east of Hordyski, north of the Banovitchi (north of the Niemen front), after a violent bombardment of our trenches Sunday night, the enemy took the offensive, but was repulsed. At the same time, the Slutski front, the enemy attempted to approach our trenches on the Schara, but was repulsed.

Northeast of Lake Vyonoskoye (south of the Schara, north of the Pripiet marshes), yesterday, at noon, the Germans attacked the farm five versts (about three miles) southwest of Lipsk. They were repulsed and the enemy renewed his attack at noon on a greatly extended front under cover of heavy and light artillery.

On the Str (in Volhynia), from Kolki to Sokul, the Germans are bombarding our trenches with heavy artillery, and have attacked locally, but everywhere were successfully repulsed. Repeated mass attacks near Lipovka, on the Stokhod (near the Kovel-Rovno Railway, twenty-seven miles southeast of Kovel) were repulsed. One of our companies pursued the enemy half a verst and took fifteen German prisoners.

Toward Lutsk and further south the situation is unchanged. We repulsed an attack on Satorze (on the Lutsk-Vladimir road, twenty-seven miles west of Lutsk).

Cossacks Press Forward. "On the reaches of the Dniester south of Buczacz our Don Cossacks, having crossed the river fighting and overthrowing elements of the enemy's advance guards, occupied the villages of Sleskerghine and Petruve, capturing five officers and 350 men. "Russian cavalry, after a fight, occupied the enemy position near Sorzitt, nine versts (six miles) west of Kimpoling (in the Carpathians, in extreme Southern Bukovina).

"We are also making progress southward, approaching passes leading to Transylvania. According to later reports we captured large depots of wood and thirty-one abandoned cars at the Molt and Frumos stations on the Gurahumora-Raska Railway (Southern Bukovina). "Kimpoling, guarding the entrance of Kiril Baba Pass from Southern Bukovina, to Transylvania, was defended by a Russian force, but the considerable Austrian force, but the Russians, who had covered the thirty miles through the mountains from Gurahumora in two days, attacked them with scarcely an hour's rest and drove them out of the town.

Pfanner and Bothmer in Peril. Russian military critics believe Gen. Pfanner's army, which has been completely separated from the rest of the Austrian lines and rushed fifty miles south through the whole length of Bukovina and into the mountains, is now completely demoralized. Gen. von Bothmer's position is also regarded as precarious. Since Gen. Pfanner's army has been driven south his right flank is completely unprotected. With the Russians moving west to the south of him, on the Dniester, it is expected he will soon have to fall back from the Stripa to the Ziota Lipa or possibly the Gniza Lipa.

Tag day, under the direction of the United Irish Relief Fund committee for the benefit of the widows and orphans suffering from the recent uprising, will be held in this city, Saturday, July 1, and it is hoped the people of Bridgeport will respond at least as liberally as in New Haven where two weeks ago more than \$5,000 was raised for the purpose. EXCURSION TO ROTON POINT POSTPONED ON ACCOUNT OF WEATHER

Announcement was made this forenoon that because of the inclement weather of the morning the excursion scheduled for Roton Point for the benefit of Bridgeporters had been postponed. The date of the excursion will be announced in The Farmer.

Sixty-eight thousand horses have been ordered by the War Department.

Four thousand motor trucks for army use are to be purchased by the government.

Samuel T. Davison was elected vice-chairman of the Philadelphia Stock Exchange.

Sensibility. Two highly respectable citizens of Brooklyn were strolling past the old Kings county penitentiary, now nothing but a memory. They noticed a gang of convicts working on the road and paused to watch the prisoners, who appeared to be harder than the stones they were breaking. The guard, a tough looking man, came along and said:

"Beg pardon, gentlemen. You will have to move on. It embarrasses the boys to have their friends see them in such a predicament."—New York Post.

The Woodshed Test.

A city man, familiar with life in the country, uses the "woodshed test" to determine whether it is safe to lend a farmer money. If he finds a good stock of wood on hand, with plenty of it split and neatly piled and some split very fine, so that it will kindle easily, he concludes that the man is forehanded, looks out for his wife's comfort, does not spend his rainy days at the store and is a good risk. If the woodshed shows shiftlessness he refuses to lend.—Youth's Companion.

BUILDING A LIFE.

To have a beautiful old age you must live a beautiful youth, for we ourselves are posterity, and every man is his own ancestor. I am today what I was because I was yesterday what I was.—Elbert Hubbard.
